blo.kart[®]
wind blow'n obsession

fun, fast, compact

fun

blokart sailing (karting) is rapidly becoming the world's number one land based sail sport. Being one design, it is ideal for both recreation and competition so that anyone, regardless of age, size or gender can enjoy fun and competitive racing on a level playing field. Compete in the production class (kart out of the box) or add blokart authorized accessories for the performance class. (see POD and accessories)

fast

Able to accelerate quickly, the blokart is perfect for tight pack situations in small areas. Being light and stable it allows for close exciting action, much like speedway or motocross racing.

compact

Weighing only 29kg (64lb), the blokart is portable enough to fit in the trunk of most cars. It can be assembled from its unique carry bag without tools in just a few minutes.

2

"An instant success with my family, so much so that I have purchased four blokarts, and we just love racing around in them."

– Don Caudwell, New Zealand

engineering excellence

Add the amazing performance of this little machine and wow! blokart delivers the goods!

Because of its small size and extreme manoeuvrability the blokart can be used almost anywhere – from beaches to parking lots, sport and recreation grounds, tennis courts and even on ice!

The blokart packs down into a unique carry bag which will fit in the trunk of most cars.

"I had it out of the bag, rigged, and running in a nearby car park in less than 10 minutes"

– Pheroze Jagose

3

pro

If you want nothing but the best, the Pro is for you. With polished stainless steel chassis and floor pan keeping maintenance to a minimum. This machine is a show stopper. Includes high spec. stainless steel fittings and high polish floor pan.

Sails are available in 5 colours in 3.0m and/or 4.0m sizes.

specifications

Chassis chassis, mast base, keel, backrest, struts	Stainless Steel hand polished
Chassis Components fork, footbar, tiller	Stainless Steel
Finish chassis finishing process	All Polished
Hardware pulley blocks and down haul	Ronstan® Ball Bearing Blocks ClamCleave® Down Haul
Floor Pan material and coating	Stainless Steel Mirror finish
Standard Sail size and colour	3.0m or 4.0m 5 colours
Fasteners & Wheel Bearings	All Stainless Steel

4

“After two years of beach action she still looks a million dollars”

– Roger Wild, Australia

"It was cool to see the global blokart community coming together, just like one big family"

-Jono Craig, NZ blokart Open 2005

sport

With a high strength steel chassis protected from the elements with a zinc shield and powder-coated finish and stainless steel fittings the Sport is designed to take the punishment of years of sailing.

The Sport is available with a 3.0m and/or 4.0m sail in 5 sail colours.

specifications

Chassis chassis, mast base, keel, backrest, struts	High Strength Steel
Chassis Components fork, footbar, tiller	304 Stainless Steel
Finish chassis finishing process	Zinc Sheild® Powder Coated
Hardware pulley blocks and down haul	Ball Bearing Blocks ClamCleet® Down Haul
Floor material and coating	Aluminium Heavy Duty Grey Powder Coat
Standard Sail size and colour	3.0m or 4.0m 5 colours
Fasteners & Wheel Bearings	All Stainless Steel

6

“Full contact karting! Extreme speeds! Screaming starts! White knuckle mark roundings! All right in front of the spectator area.”

– Mike Moody, following 2005 USA blokart open

the blokart grin
– Deb Davidson, New Zealand

ice blades

From blokart to ice kart in minutes, turn your lake, pond or reservoir into a winter race track, with carving turns cutting tracks through the ice. It might be cold but it'll warm your soul.

specifications

100% Stainless steel

Laser cut precision ground blades

Double-edged front blade with rollover steering

Toe-in adjusters for fine tuning rear blade alignment

Slow down quicker with the clawed handbrake accessory.

8

"Racing round the parking lot and then clipping on the blades in just a few minutes left spectators gob smacked"

– Sven Koebelston, Sweden

pod

Get the performance edge and stay out of the elements. The POD reduces drag for increased speed for the race junkie, (and generally keeps the sand out of your boxers). Dust, dirt, sand, rain and wind-chill are no longer an excuse to stay at home.

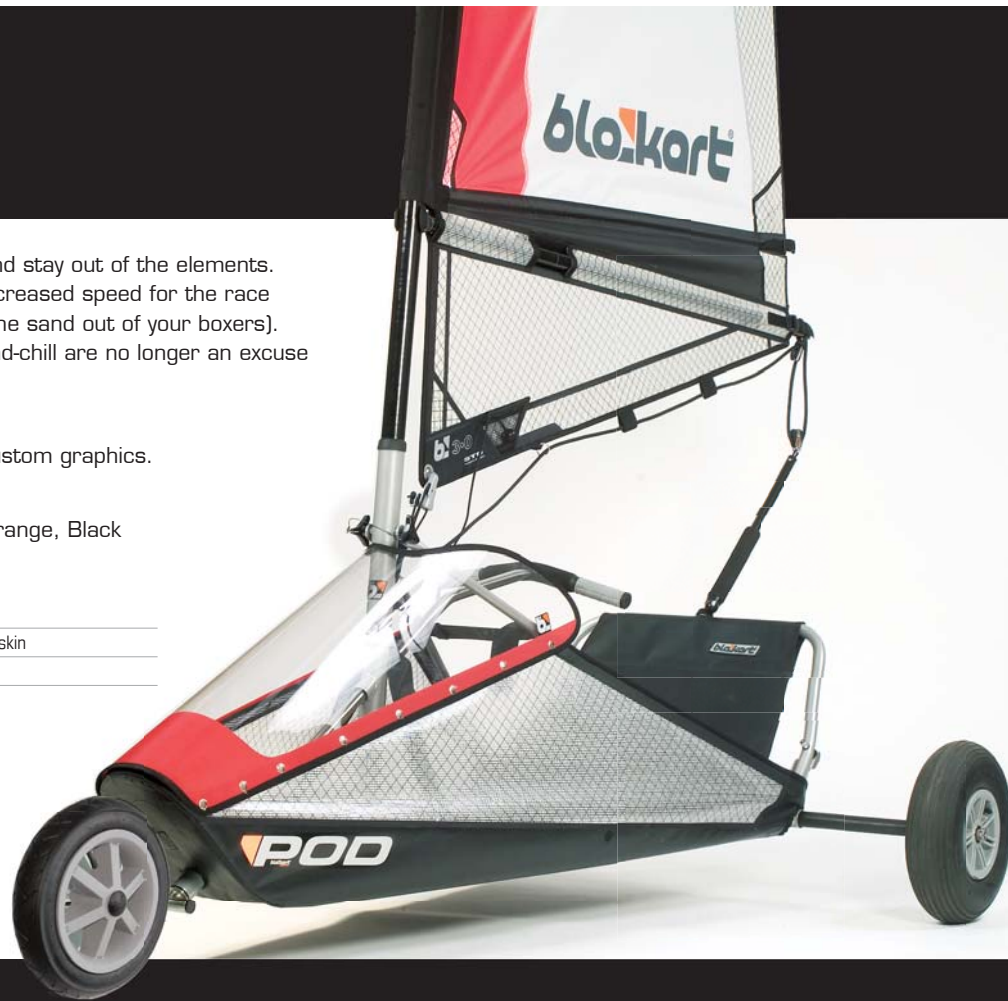

Personalise your POD with custom graphics.

Colours: Red, Blue, Yellow, Orange, Black
specifications

- Clear polycarbonate windscreen
- Waterproof and lightweight vinyl/scrim skin
- Venturi for drainage
- Stainless steel nose frame

"We were sailing neck and neck until Dave got a POD. Now he leaves me in the dust"

- Dwayne Constable, Australia

shadow

Double up, the ultimate family accessory; sit beside your kids as you teach them how to sail. The shadow clips onto your existing blokart turning it into a two-seater. Made to fit 1 adult and 1 child, great for two kids once they've got the hang of things or two adults in high wind! Stash your gear for a long run up the coast.

specifications

High strength steel or stainless steel frame

Stainless steel foot bar and roll bar

Silver powder-coated floor pan

Shredder and Son

10

"No way would I hop in a kart - until they got me in a shadow! Now I have the bug!"

- Donna Pickard, New Zealand

deuce

Teams racing! With the deuce two karts become one in minutes, enabling two-handed sailing.

Keep adding deuce bars and build a race train.

Alternatively, the second blokart can be used as a sail training aid or for camera work.

"Double, triple, quadruple the fun!"

- Phil Ready, New Zealand

accessories

MSP (Mast Sleeve Protector)

If you 'must crash' your mast 'must have' protection when sailing on asphalt or rough surfaces. Fear no more about expensive sail repairs by clipping on your protection (blokart MSP)

helmet

Protect your nut in safety and comfort. The blokart helmet complies with CPSC & CE1078 safety certifications, it has a unique dial headlock for the perfect fit, padded ear flaps and chin strap. Available in Matt Black or Matt Grey.

sailing gloves

Get a grip, sail all day without blisters.

foot bar extension

This clever device allows those with long legs to fit comfortably in a blokart. Clamps over keeltube. Perfect for those over 6ft tall.

junior foot bar

The junior footbar offers secure footing for those 4ft and under. Simply clamp on existing footbar and adjust to fit.

12

"My friends didn't believe that my two 11-year old boys had a kart up and running in six mins 33 secs flat, until they saw it for themselves."

– Bentley Wan Chong, Fiji

keep on rolling

big foot

Run a blokart 6x4.00 rear wheel on the front of your kart when sailing on softer surfaces. The Big Foot comes complete with a purpose built fork.

disc brake

STOP PRESS! The 2007 release of the blokart disc brake will herald the start of a new era, (a blokart with brakes). Designed to fit to the new 2006 front wheel, the brake will aid hire operations, as well as giving competitive racers even more control in close pack racing, preventing bumps and scrapes.

sails

Sail sizes: 2m, 3m & 4m. Colours: Red, Blue, Orange, Yellow & Green

weight (kgs)	wind strength (knots)				
	5	10	15	20	25
30	4.0	3.0	3.0	2.0	2.0
40	4.0	3.0	3.0	2.0	2.0
50	4.0	4.0	3.0	3.0	2.0
60	4.0	4.0	4.0	3.0	2.0
70	4.0	4.0	4.0	3.0	2.0
80	4.0	4.0	4.0	4.0	3.0
90		4.0	4.0	4.0	3.0
100+		4.0	4.0	4.0	3.0

"Having the range of sails means both my kids and I can get the most out of any wind!"

- Steve Anderson, Canada

performance accessories

mast crane

Top your performance blokart off with a mast crane. The turban is replaced with a sealed bearing crane which allows the sail to rotate freely under higher downhaul tension. Mast crane, performance downhaul and full carbon mast..... the ultimate performance set-up!

CRB (carbon race base)

Stiffen your mast by replacing the two lower fiberglass sections with a Carbon Race Base. A stiffer mast means a more efficient sail and better performance.

full carbon

Upgrade your CRB with carbon fibre top sections, or opt for full carbon from the get-go!

windicator

Check your apparent wind at a glance, this lightweight device clips onto your mast and is 100% accurate in only 2 knots of wind.

performance downhaul

Fine tuning at your fingertips. Adjust and cleat your downhaul as the wind changes. With different mounting options, it's just a matter of personal preference.

14

"We even had a team in Qatar ripping around in the blokart, they couldn't believe it went so fast without a motor!"

– Mark Trotter, Doha QATAR

clubs and racing

blokart clubs are being formed around the world to promote this rapidly growing sport for fun and competitive activities. Most clubs meet regularly at local car-parks, grass fields and beaches... wherever the wind blows! Contact your local dealer to join your local club.

The blokart is a one design machine, so anyone, regardless of age or gender can enjoy competitive racing or just blasting around with friends. From the first blokart in 2000 to today, your kart will never be too old.... and neither will you!

Regional, national and international events are occurring regularly – see www.blokart.com for more details and information on racing rules and regulations.

“Join the global community, boys and girls of all ages are getting the ‘blokart grin’, see you soon.”

– Paul Beckett

15

blokarts are available worldwide - check out our website for dealers, clubs, forum, upcoming events, downloads and the latest accessories

about us

blokart International is based in Tauranga, New Zealand and specialises in the design, manufacture and distribution of revolutionary sailing and recreational products.

The blokart was developed by inventor Paul Beckett in his garage in September of 1999. Paul was inspired to build a wind powered toy that was portable, fun and easy to use for people of all ages.

We hope you join this sailing revolution and enjoy it as much as the team at blokart do.

Paul and Matt Beckett
